

GALIL-C PISTOL

Indumil presents its new version of Galil-C pistol, compatible with all models of Galil, an excellent alternative for the specialised market of semiautomatic pistols. Chambered in 5.56 can also fire .223REM, includes Picatinny rail system, the barrel integrates the front sight and does include the muzzle brake. Uses standard Galil 5.56x45mm magazine with 20 or 30 rounds as per request. Proven in combat by the Colombian Military, the Galil-C pistol rises the bar when it comes to performance.
